TAPERS

Introducing a low profile
taper that does it all

LP-200

*Finally...an
industrial taper that
can do it all!*

A custom machine built for the sole purpose of taping low profile boxes. Our machine can tape boxes as small as 1/4" high and can accommodate widths of up to 56" wide. Our LP-200 applies 2" tape while the LP-300 applies tape up to 3" wide.

Distributed by:

This custom LP-200 offers two leading and trailing C-Clips along with a full top seam tape. Other styles can include full length with C-Clips or L-Clips on the leading and/or trailing. The outside clips are adjustable to the width of the box.
